#### SECTION B

51. Read the passage below carefully and in full sentences, answer the questions that follow.

Most schools in Uganda hold their annual sports days in term one. During this term, there are a number of preparations which are done. The games and sports masters take charge of the entire exercise, supported by the house patrons of different houses.

Among the different preparations, they register pupils suitable for different items and train them daily on an agreed time table for at least one month before the actual sports day.

On the actual day of the competitions, the games and sports master together with the house patrons assemble the pupils in their respective camps. Whistles are blown from different corners of the field, putting most participants for different items on tension and alerting house patrons about the items they should prepare their participants for. In one corner, there is a recording table where trusted teachers record points for participants according to their positions.

The officials who amuse me most are the starters who run almost every where as if they are participants as well.. Equally amusing are the teachers who run round the field shouting names of participants from their houses and promising them rewards if they win their opponents. Unfortunately, in each race, there are winners and losers.

At the end, points are added, participants and their supporters assemble and congratulatory speeches are made. Finally , the chief guest of the day announces the results. The winners sing songs of victory as they run around the field with their trophy. The losers walk away quietly and wait for the following year revenge.

54. Read the poem below and answer questions that follow in full sentences.

#### PEOPLE OF THE CITY

People of the city  
People moving fast, others slow  
Walking on the subway.  
Moving on the pavement  
Early morning and late evening  
Up and down they do.  
  
Always passing and passing  
Behind and in front of us  
Seated in the taxi  
Others in the bus  
Round and round they go.

People with their hats on  
Going indoors  
Others with umbrellas  
When it rains and pours  
Here and there they are  
  
People in tall buildings  
Others in stores below  
Riding in the lifts  
What is true about them is  
You see but will never know them
